BUSINESS MEN

Waste Much of Their Money in Fake Advertising.

The Business Men's Association of Canton, O., is tired of "fake" advertising schemes. It has announced that in the future it will discourage any form of advertising other than in newspapers. Unquestionably business

waste a great deal of money in buying advertising space where it does them no appreciable good. The merchant simply is "worked" in order to help out some individual or organization of individuals. He buys because he has become accustomed to it, or because of the assurance that a competitor has bought.

It is a part of the newspaper's business to serve the advertiser. The value of newspaper advertising has been demonstrated. The merchant who spends money for newspaper space and uses that space with judgment need have no apprehension that he is buying a gold brick. The purchasing public, to whom the business man looks for patronage, is accustomed to going to the newspapers for information as to what the men of business have to offer.

The newspaper is the natural source of information, the logical medium of the advertiser.—Courier-Journal.

Tax Commission Report to Be Submitted to Gov. Willson.

The State Tax Commission with a number of members of the Advisory Board met at Frankfort last week to consider the report which will be made to Governor Willson as to remedial legislation that is needed in Kentucky. It is expected that the Governor, in his message to the incoming General Assembly, will adopt many of the recommendations regarding needed changes in the State's taxation system.

"Worst Enemy of Labor."

The American Federation of Labor at Toronto on November 15, adopted a resolution, declaring the United States Steel Corporation to be the most formidable and aggressive enemy with which the organized movement has to contend.

As it is understood in Kentucky, the \$200,000 loss by fire at an Ohio distillery represents what the distillers hope to get for the goods. Of course, it is impossible to conceive of any amount of Ohio whiskey having that intrinsic value.

SENTENCED

To 60 and 90 Days in Jail By U. S. Supreme Court.

In Washington, on November 15, ninety days imprisonment was the sentence imposed upon ex-Sheriff Joseph F. Shipp, of Chattanooga, Tenn., by the Supreme Court of the United States for contempt of court for failing to prevent the lynching of the negro, Ed Johnson, convicted of assault upon a white woman, but whose execution had been stayed by the Supreme Court.

Luther Williams and Nick Nolan, 90 days each for connection with the lynching; Jeremiah Gibson, Jailor; Henry Padgett and William Mayes, all of Chattanooga, 60 days.

STORY OF THE CASES.

This was the second time in the history of the Supreme Court of the United States that that august body had imposed a sentence upon citizens held guilty of disregarding its mandates.

Heading the little group of six men was Joseph H. Shipp, the sheriff, bowed down under his 76 years. Jeremiah Gibson, the jailer, stood with him. With be-dimmed eyes he looked upon the long white locks of the Chief Justice, himself 76 years of age.

Luther Williams, Nick Nolan, Henry Padgett and Wm. Mayes, residents of Chattanooga, found guilty of participation in the lynching of Ed Johnson, formed the rest of the group.

The proceedings were practically without precedent. In 1875, John Chiles, a business man of Texas, was brought before the court for contempt in connection with dealings in Texas indemnity bonds, contrary to an order of the Supreme Court.

The case today originated in the court's decision in March, 1906, to consider the appeal of Johnson, from a verdict of the Tennessee courts holding him guilty and sentencing him to be hanged on a charge of assault. The night after the determination of the Supreme Court to review the proceedings was wired to Chattanooga, a mob stormed the jail, took the prisoner out and lynched him.

Baby won't suffer five minutes with cramp if you supply Dr. Thomas' Electric Oil at once. It acts like magic. nov.

Night Riders.

At Union City, Tenn., a special term of court convened to try eight alleged night riders convicted of the murder of Capt. Quentin Rankin, October 19, 1908. Six of the eight men are sentenced to be hanged. The cases were reversed by the Supreme Court.

BANK'S FIGURES

Show Tobacco Crop is Nearly 400,000,000 Pounds.

A question of much importance to bankers of Louisville and Kentucky at the moment is what effect the tobacco situation will have on the money situation during the next few months and the next year. Several banks of Louisville have been in correspondence with bankers in different sections of the tobacco growing districts. One of these institutions has letters from more than sixty bankers bearing on the extent of the tobacco crop.

From a canvass of these letters the deduction is made that the crop is an enormous one, in fact the largest ever grown in the State. The increase is almost wholly in the Barley districts. The Barley crop, taking the opinion of the bankers, amounts to between 150,000,000 and 210,000,000 pounds and the production of other types between 175,000,000 and 190,000,000 pounds, making the total yield of the State between 325,000,000 and 400,000,000 pounds.

LARGE CROP POOLED.

The pooling of tobacco seems to be strongest in the Barley districts. Between 55 and 65 per cent. of the Barley crop has been or will be pooled. In Braeken county, with a crop of 6,400,000 pounds, of which it is estimated that 98 per cent. has been pooled; in Bourbon county about one-half of a crop of 6,500,000; in Harrison county, about 8,000,000 pounds of a crop of 9,500,000 pounds have been pooled; in Jessamine county, 2,224,000 pounds of 3,200,000 pounds have been pooled; in Mercer county, 2,525,000 pounds out of 3,625,000 have been pooled; in Owen county, 7,250,000 out of 9,000,000; in Madison county, out of a crop of 7,000,000 pounds, only 500,000 pounds have been pooled; in Shelby county, less than half of the crop; in Washington county, only 1,000,000 pounds of a crop of 6,800,000 have been pooled; in Woodford, about half of a crop of 6,150,000 has been pooled.

Henry county, with a crop of 3,610,000 pounds, less than 1,250,000 pounds have been pooled; in Montgomery county, out of a crop of 4,500,000 pounds, about 1,000,000 pounds have been pooled; in Madison county, out of a crop of 4,500,000 pounds, only 500,000 pounds have been pooled; in Shelby county, less than half of the crop; in Washington county, only 1,000,000 pounds of a crop of 6,800,000 have been pooled; in Woodford, about half of a crop of 6,150,000 has been pooled.

WIDE RANGE IN PRICES. The unpooled tobacco is selling very rapidly, prices varying from 10 to 20 cents, with an average around 12 to 14 cents. Loose leaf sales have gained in popularity. Considerable tobacco is being sold in the barns and buyers are going from farmhouse to farmhouse in some sections.

In the dark tobacco districts the pools do not appear to have made as much headway as in previous years. In Christian county it is estimated that 75 per cent. of the crop will be sold independently through loose leaf warehouses. In Cynthiana county about 15 per cent. has been pooled. In Graves county, practically none, and in McCracken the amount is small.

BURDENING IN FINANCE.

Enough of the tobacco crop will move early and bring sufficiently good prices to more than offset the tightening influence on money due to pooling. There will be plenty of money at reasonable rates to finance legitimate enterprises and healthy expansion in business.

SPANISH SWINDLE.

Don't Bite and You Won't Be Caught.

The Department of State, at Washington, has received a report from the American Consul-General at Barcelona, Spain, in regard to the band of swindlers operating in Spain, who make a practice of writing to persons in the United States respecting the imprisonment of a relative and the guardianship of a child.

The alleged prisoner generally describes himself as a political prisoner from Cuba; he is at the point of death and has but one friend—the prison priest—through whose good offices he is enabled to smuggle an occasional letter out of the prison fort.

The prisoner is rich. He has a fortune on deposit in the United States, the certificate of deposit is concealed in a secret receptacle of his valise; the valise has been taken possession of by the court at Carthage, which tried and condemned him, and will be held until the prisoner or his representative has satisfied the costs of the trial. The prisoner has an only daughter; dying in his prison, his sole thought is of this beloved offspring. He has no friend or relative in Spain. In this emergency his thoughts turn to the distant relative in the United States whom he has never seen. Will the distant relative assume the guardianship of the darling daughter, and the darling daughter's fortune of about \$50,000.

If the distant relative accepts the trust one-fourth of the prisoner's entire fortune will be the material reward. The good priest will go at once to the United States and take the darling daughter with him. There is but one condition: The ready money which the prisoner brought with him to Spain has been exhausted; the distant relative is therefore requested to send enough to liberate the valise containing the secret receptacle and the certificate of deposit. The money is to be sent to the good priest at an address indicated, and, having received it, the good priest will at once secure the valise and start for America with the darling daughter. You send the money and that is the last of it.

It is a simple scheme, but presented in such a plausible way that almost any unsuspecting "distant relative" of European extraction would be more or less deceived by the glad prospect of falling heir to the agreeable custody of a darling daughter with a big fortune, and a one-fourth interest therein as an additional recompense.

Recently the letters written to the distant relative have varied somewhat from the original; the political prisoner having become a noted Russian banker who abandoned, leaving a deficit of some millions of roubles, killed in a quarrel in England another Russian, and finally took refuge in Spain, where he was apprehended and charged with manslaughter.

The public is warned to place no credence in such or similar letters. Every effort has been made by the Department of State and its representatives in Spain to unmask these scoundrels and bring them to justice.

W. O. HEAD

Is Now Mayor of the City of Louisville.

William O. Head entered upon a four years' term as Mayor of Louisville on Tuesday, Nov. 16. The oath was administered by Judge Snickelford Miller. The room and galleries were packed. The inauguration exercises were simple. On account of an attack of lumbago the retiring Mayor, James F. Grinstead, was unable to welcome Mr. Head.

MAYOR HEAD'S ADDRESS.

His address in part was: "Friends and Fellow Citizens: It is a proud distinction to be Mayor of the city of Louisville, and coupled with that enviable honor is an obligation of duty to which the best energies of my heart, brain and hands are willingly consecrated. Rich and powerful and resourceful as we are, there is abundant opportunity to achieve far greater things for this beloved city, and with the united support and encouragement of all our people, there shall be no lack of effort upon my part toward the substantial upbuilding and advancement of Louisville, and all that we hold sacred and supreme in the civic sense as well as industrially and commercially.

DECLARES HIS PLATFORM.

"As a loyal Louisvillian, loving my city and grateful for the great honor done me, that is the broad platform upon which I take my stand and that is the broad platform from which I make appeal to every citizen, high or low, rich or poor to labor with me.

"We shall have Sunday closing. Graft in the city administration will not be tolerated. It is my purpose to make this administration the protector of the rights of all. We should convince every man that there is a premium upon good citizenship, and law observance. For every dollar paid into the city Treasury, I promise there shall be an adequate return in duty discharged and service rendered. In so far as the finances permit, better and cleaner streets will be provided. The Police and Fire Departments will be maintained at a high standard. Those departments shall be divorced from politics."

School Ordered Closed.

At Paris, Ky., upon orders from the Board of Health, Superintendent Chapman closed the city schools indefinitely owing to the prevalence of diphtheria among the children of Paris.

Donn's Kidney Pills have brought thousands of kidney sufferers back from the verge of despair. Will cure any form of kidney trouble.

W. B. Senier, W. Locust St., Mt. Sterling, Ky., says: "I had more or less trouble with my kidneys for four or five years, brought on I think by the paints and varnishes in my work. My kidneys were disordered and the passages of the secretions were profuse. That was before I began using Donn's Kidney Pills and since that time I have been entirely free from annoyance. Donn's Kidney Pills also relieved the attacks of backache which had caused me so much suffering. I have procured a good many boxes of Donn's Kidney Pills at F. C. Durson's drug store and consider it to be the best investment I ever made."

OUR RESPONSIBILITY.

In obedience to the will of the people as expressed by the ballot in the next Kentucky Legislature will be Democratic by a majority of 60 on joint ballot. Except as each member shall be entitled to praise or criticize for his own views and actions affecting legislation, the responsibility for enactments will rest upon the Democratic party. There can be no leading or shifting of that responsibility.

May we not cordially cherish to hope that our leaders (those who make our laws) may be so actuated by a spirit of justice, fairness, wisdom, patriotism and a fear of God, that when their banners are over there may hear, in grateful acknowledgment by the people, the universal acclaim: "Well done good and faithful servants."

Here, permit us to say that the present status of temperance legislation is attributable to the Democratic party, aided by some Republicans equally as zealous. The advocates of temperance have not in all cases obtained as much as they desired or as hastily. We think their achievements have been wonderful, and we expect further emancipation from the evils of the liquor traffic.

We admonish our leaders to bear the pleadings of many thousands of calm, sane, patriotic, law-abiding farmers, merchants, lawyers, bricklayers, blacksmiths, doctors, editors and others who are interested in this matter. Deliberance will come.

WOMAN SUFFRAGE.

Supreme Court Justice David J. Brewer thus expresses confidence in the ultimate success of woman suffrage in an article which will appear in the December issue of the Ladies' World:

"Female suffrage will come, not by or out, but by varying degrees."

"Woman's broader education, increasing familiarity with business and house affairs will lead to it. And why not? The chief reply is the home. God forbid that it should be jeopardized, for upon it, in all its fullness, depends the best social life. In fact, it is the basis upon which growing humanity depends. And if woman must ever be the great factor, the uncalculated agent."

"Female suffrage will not decrease the home or lessen its power of influence. On the other hand it will introduce a refining and uplifting power into our political life. It will not stop marriage, neither will it higher education. The great natural laws of our being will always assert themselves."

We favor the extension of the privilege of voting to women, and hope to see woman on an equality with man in the selection of rulers.

THE WAY TO FIGHT INTemperance.

In the opinion of the International Congress Upon Alcoholism, in convention at Washington, alcohol and alcoholism are the two greatest enemies of moral, artistic and commercial progress. The congress representing some twenty-five countries, recommends rigid restrictions and regulations of the liquor traffic, but regards as equally important "the need of educating the younger generation to a true knowledge of what the effect of alcohol is upon the human system."

Recommendations by the American delegates include the following paragraphs:
"Increased teaching as to its character and influence should be provided, to conserve industrial efficiency in the commercial competition of nations, as well as to promote two of the chief objects of government—the public health and morals."

The Courier-Journal advanced the idea that education of the individual rather than the prohibition of the sale of liquors, is what is needed to put down intemperance.

That both whisky and beer are enemies to efficiency, to character, to spiritual welfare, when used without moderation, is admitted by everyone from the most ardent prohibitionist to the busiest bartender. It is, therefore, important to teach the boy to avoid intemperance, because breeding winning is difficult, competition is hard, and the rewards go to the man who best maintains his efficiency. It is important to teach the child that next in value to treasure hid in the other world in which we are taught to believe, health in this world is the most priceless of assets, and that without it life can be at best but a dreary, dragging, struggle toward the grave. He should be taught that to live sanely, to avoid eating and drinking unwisely, keeps the vitality at flood-tide during the years that must be given by the majority to gainful occupations, and that should be devoted by everyone to useful activities. He should be taught that sobriety is necessary to self-interest and self-preservation as well as self-respect.

The law that cannot be repealed—the law of retributive justice, which is formulated in Holy Writ in the words, "The wages of sin is death," is not always sufficient to restrain the appetites and impulses of the individual. Where it fails, although his knowledge of the necessity and inevitable results of certain courses is clear and complete, laws made by legislators to govern each and every man with a good set of morals do not meet with success. —Courier-Journal.

We ask fathers and mothers to read the above and talk of it with their children. Educate and restrain them. The Courier-Journal, which has been very rash and even unkind in some of its statements relative to preachers and other Christian men who are zealous advocates of temperance and of the prohibition of the liquor traffic, seems in this article to partially atone for former errors, and give some good advice.

As long as the individual, city, state or nation is in partnership with the liquor traffic, the fullest measure of efficiency, usefulness, happiness cannot be attained.

Away with the whole business!

DID NOT BUY IT.

William J. Gaynor, the successful candidate for Mayor of New York, has filed with the Secretary of State an affidavit, as required by the New York law, giving the amount of money spent by him in that canvass, which is as follows:

"I, William J. Gaynor, a candidate voted for at the public election held in the city of New York on November 2, 1907, for

the office of Mayor of the city of New York, in the State of New York, pursuant to section 776 of the penal law, do hereby state that I did not contribute or expend any moneys in aid of my election, either directly myself, or through any other persons."

We submit to the people of Kentucky the fact disclosed by this affidavit. The candidate for Mayor of the greatest city in the world, an office second only in importance to the Presidency of the United States, made a successful campaign without contributing to the campaign fund of his party and without spending any money in the canvass. —Lexington Herald.

Let candidates in this section take note.

PURITY IN POLITICS.

We hope the Legislature will pass a law similar to the New York law so that in the future it will be impossible for campaign committees to receive contributions from unknown sources and expend them for secret purposes. With a State primary law requiring the nomination for all offices by primary elections to be held at the expense of the State, and a law requiring the publication of itemized statements of expenses incurred by candidates and receipts and expenditures by the campaign committees, a long step will be taken towards securing purity in politics. —Lexington Herald.

The bills and the resolutions of the State Legislature, introduced in the House of Representatives, and the resolutions of the Senate, introduced in the Senate, are as follows:

The All-Wool Idea

Goes Away Back to The Cradle of the Human Race.

You cannot talk it out or breed it out of mankind. No matter what station in life men occupy, they never will be satisfied with garments made of anything but the fleece of sheep; and who can blame them? It is easy for any merchant to give you all-wool in a suit at \$25, \$30 or \$35, but the merchant that gives you all-wool clothes at \$10, \$15 and \$20 must be a judge of what and where to buy. We are pursuing an all-wool policy, branding in many instances on the tickets exactly what the cloth is made of.

Burley Society Pays Incorporation Fee.

A dispatch from Frankfort says: "Failure of the People's State Bank, of Winchester, to honor a check for \$2,000 drawn by the Burley Tobacco Society nearly caused the articles of Incorporation of the new Burley Tobacco and Insurance Company to be returned from Frankfort. Ben L. Bruner, Secretary of State, called up Burley headquarters at Lexington and the society arranged to have a Lexington bank pay the check. The trouble arose over the holding up of the Burley Society's funds by the banks at Winchester, where over \$100,000 is on deposit. The fees charged by the State amounted to \$2,000 on the \$2,000,000 of capital stock.

ASSAULT

With a Deadly Weapon—Fined in Police Court.

In our issue last week we told of an experience on South Maysville street on Monday evening, including the arrest and trial of Stanley Anderson on different charges.

Later developments in court establish the fact that while the arrest was being made Mr. Miller Anderson, of our city, brother of Stanley, interfered and sought by forcible means to release his brother. The weapon used was a knife, which he flourished in a threatening manner. He was arraigned on Wednesday afternoon before Police Judge Senff. The verdict was a fine of \$100. An appeal was at once taken to the Circuit Court.

The disturbance occurred as many ladies and gentlemen were leaving the opera house and there was considerable excitement. Comment had been made that only Stanley Anderson had been deemed guilty of any violation of the law.

The City Council at a conference held at the Mayor's office on Tuesday evening instructed the Mayor to serve formal notice upon the Chief of Police to make affidavit for warrant for Miller Anderson for this violation and have him before the Police Court within twenty-four hours from the time of notice. No warrant was issued, but on Wednesday at 2 o'clock the parties interested appeared in the Police Court.

FISCAL COURT.

Report of Committee Not Available—Poor House Contract Will Come Later.

As the matter is one of considerable interest in more than one respect, our readers in this county will know the facts pertaining thereto.

SUMMER COON

Tigertown, Breathitt Co., Ky.
Mr. Editor:—Me and Jane was in Mt. Sterling court day seeing the sites and doing sum shopping for the holidays. I runned in on a ten dollar William eckelsund day and Jane proposed to let us take the ten dollar William and give the old town a coat of red paint or bust, and we did it in grand stile.

We would of had a match better time if Jane had of left the baby at home. I wanted her to leave it at home. I told her how it would be, but Jane is like most of women over their first kid, and dogmatics if the brat didn't cry and squall all the time. I never was bound so bad as I was when we went in to a store to look for sum socks and a bussel. The little schawnee never quit squalling. Jane maid me go and get a bernmar, that dun but little good. The little washine gobbled up the bernmar befor you could say Jack Robinson; so we thought we had better give the store a rest on the squalling job. I mood then clerks would be allright glad when we got out with our crying washine, so we went in mother store thinkin the kid had a bout tired out on halling and squalling, but my lord, it broke loos worse than ever. The lady clerks in there I no was glad to see Jane and me take the brat and leave. One of the ladies asked Jane what the kids name was she told her it was Raulfus. Gee, she ses, that name is a nough to set the woods on fire.

While we was a way sum thief broke in our house and stole Janes trunk. She laid her seven up all the flower and meal sacks for a year and laid mind her self dead loads of winter under wear, and the cleaned up the hole load, trunk and all. I had some calamity water and my horse-pistol in the trunk and the thief stole the hole outfit. I thought of had my horse-pistol with me but I was a head some of them poisonen might run to me on Mayville street and I might git

Troops to Go For Failure to Report.

By direction of Gov. Glascock, orders have been issued by Adj. Gen. Barlow that Company A, Second Infantry, West Virginia National Guard be mustered out of service on account of the failure of a majority of the members of the company to report as ordered to protect the lives of two negroes suspected of implication in an assault upon a white woman.

The Hen, the Duck and the Non-Advertiser.—A Fable.

A duck which faithfully stuck to business during the summer and laid several dozen fawn colored eggs complained that she wasn't appreciated. "See that hen over there," said the duck; "she hasn't laid as many eggs as I have, nor as big, but she has looks written about her and verses composed in her honor, while nobody is saying a word about me."

"The trouble with you is," said the wise rooster that was standing near, "that you don't tell the public what you have done. You lay an egg and waddle off without saying a word, but that sister of mine never lays one without letting every one in the neighborhood know about it. If you want to get any use in this community you must learn to advertise."

Increase in Whisky Tax.

Loss of Life in Coal Mines.

Illinois is the scene of the late mining disaster at Cherry. The loss of life has been great, one of the worst disasters of recent years, about 300.

Here are a few details gleaned from the press reports:

"Eleven of twelve boarders at one house in the village were lost in the mines. The only survivor was an invalid at the hospital."

"One pitiful case is that of the Love family. Mrs. John Love is not only left a widow, but four sons also perished."

"A canvass of 'Long Row,' a Cherry street which has on one side thirty-three cottages identical in appearance, has revealed the awful fact that only two men remain in all the houses are, many of the thirty-three families included from one to four men."

Another report tells us that in the village of Cherry, as a result of the disaster, there are fully 1,000 orphans and 200 widows. No one of the several estimates, however, places the death toll under 300. The full extent of such a calamity cannot be comprehended.

The country will forget the Cherry accident until some new horror comes.

Figures well authenticated show that more than 30,000 lives have been lost in coal mine accidents in this country in the last twenty years. The number of maimed and crippled in such disasters baffles statisticians. In the frequency of these accidents and in the accruing loss of life the United States leads all the other countries of the world.

Trouble.

SOUR STOMACH

Is An Almost Certain Sign of Acute Indigestion. If you occasionally have a taste of sour food in your mouth, it surely shows that the food you are eating is not being digested, but instead, is fermenting and giving out poisonous gases. Belching of gas is a common symptom at such times, and also that lump of lead feeling, as if your stomach was carrying a much greater load than it could stand. If you want prompt relief and permanent cure, go to W. S. Lloyd and get a large tin box of Miso-nu tablets for 50 cents.

W. S. Lloyd knows that Miso-nu is a highly recommended scientific remedy, and that is why he is ready to return your money if it fails to cure acid stomach, belching of gas, dizziness, biliousness, sick headache, foul breath, and all stomach troubles.

American Telephone Company Gains Control of Western Union.

A long stride toward the complete control by one corporation of all wire communication in the United States was made in Boston, Mass., on November 18, in the acquisition by the American Telephone and Telegraph Company of the control of the Western Union Telegraph Company.

To make the absorption complete, the incorporation of a new billion-dollar company will be necessary to include the \$592,475,400 of bonds and stock of the American, known as the Bell Company, and the outstanding \$165,000,000 of bonds and stock of the Western Union.

WORK CONDUCTED QUIETLY.

The acquisition had been in progress for six months. A sufficient amount to secure control, said to be 51 per cent., was taken over. The officers of the telephone company believe that the merger will save the Bell Company \$75,000,000 in the new construction. The Western Union dates before the Civil War, but the Bell is of recent origin.

BUSINESS OF COMPANIES.

The telephone system annually transmits 5,956,800,000 messages, while the Western Union handles 65,033,000. The telephone system has 8,098,679 miles to wire and the Western Union 1,382,509. The total property value of the telephone company is \$545,045,600, and that of the Western Union \$124,086,920.
